

15. Final Wave 1 closure checklist

Wave 1 can be considered cleared only when all of the following pass:

Version and setup

- ☒ ~~v1.8.3 is installed.~~ **Current on v1.8.8**
- ☒ ~~Menus load.~~
- ☒ ~~System sheets exist.~~
- ☒ ~~Templates exist or are refreshed.~~

Placement

- ☒ ~~Index is first.~~
- ☒ ~~Demo P is second.~~
- ☒ ~~Master List, Monthly Change, Disenrolled, Raw Data, Banners, CP Due, Unlock CP, short imports, and Archive Demo P are before the system tail.~~
- ☒ ~~Framework Timing Report, Dashboard Quality Report, and Format Dashboard are in that exact order.~~
- ☒ ~~Templates follow Format Dashboard.~~
- ☒ ~~RFF_BASE_TEMPLATE remains last in the template/system block.~~

Visibility

- ☒ ~~Raw Data hides after formatting when configured hidden.~~
- ☒ ~~Banners hides when configured hidden.~~
- ☒ ~~CP Due hides when configured hidden.~~
- ☒ ~~Unlock CP hides when configured hidden.~~
- ☒ ~~Manual Organize Tabs preserves hidden state.~~

Monthly Change

- ☒ ~~First Monthly Change run creates the report.~~
- ☒ ~~Same month rerun errors.~~
- ☒ ~~Same month rerun does not create (2).~~
- ☒ ~~Existing report is not deleted.~~

Archive

- ☒ ~~Monthly Import archive copies sheets to archive.~~
- ☒ ~~Monthly Active archive copies sheets to archive.~~
- ☒ ~~Protected local cleanup no longer causes false archive failure.~~
- ☒ ~~Retained protected local sheets are hidden.~~
- ☒ ~~Index / archive side refreshes.~~

Dashboard Quality

- ☒ ~~Full Dashboard Quality Workflow runs.~~
 - ☒ ~~Section I populated.~~
 - ☒ ~~Section Q populated.~~
 - ☒ ~~Section R populated.~~
 - ☒ ~~No unexpected NOT RUN sections remain after full workflow.~~
-

Recommended test order

Run the tests in this order:

1. Confirm v1.8.3 script version.
2. Reload workbook and confirm menus.
3. Run Setup System Sheets.
4. Run Create / Refresh All Templates if needed.
5. Run Format Raw Data.
6. Run Format Banners Individual.
7. Run Format CP Due Date Individual.
8. Run Format Unlocked Care Plan Individual.
9. Run Format Monthly Sheets for one month.
10. Run Build Demo P.
11. Run Create Master List.
12. Run Build Monthly Change once.
13. Run Build Monthly Change again for the same month and confirm expected error.
14. Run Update Demo P Monthly Sync.
15. Run Hide Monthly Import Sheets.
16. Run Hide Monthly Active Sheets.
17. Run Archive Monthly Import Sheets.
18. Run Archive Monthly Active Sheets.
19. Run Create Index Sheet / Refresh Index.
20. Run Organize Tabs.
21. Run Dashboard Quality Workflow.
22. Review Framework Timing Report.
23. Confirm final tab order and hidden state.
